## Product information

### BAC CBD dietary supplement

#### Ingredients:

4% pure CBD (crystals) in hemp seed oil.

#### Packaging:

10 ml dropper bottle.

#### Use:

Drops placed under the tongue

#### Effect:

CBD is a non-psychoactive cannabinoid found in *Cannabis sativa* L. CBD supports the body's own 'cannabis system', the endocannabinoid system. The endocannabinoid system regulates many physiological and biological functions in the body.

#### Uses:

For supporting the endocannabinoid system.

#### Side effects:

Up until now, no side effects have been determined in clinical trials on CBD.

#### Dosage:

3 drops, 2-3 times per day. Dosage may be increased according to requirement.

#### Driving vehicles, alcohol and food:

There are no restrictions recommended for this dietary supplement regarding driving vehicles, consuming alcohol and certain types of food.

#### Interactions with other dietary supplement or medicines:

There are no significant interactions known with other dietary supplements or medicines.

#### Use for pregnant or breastfeeding women:

There is no complete information about the use of CBD when pregnant or breastfeeding.

#### Ceasing use:

You can stop taking this dietary supplement whenever you like. The health problems experienced in the period before using CBD may return when use ceases.

#### Attention:

The use of dietary supplements is no substitute for a healthy diet.

#### Quality:

The CBD from BAC is produced under GMP standards, which guarantees the quality and safety of the product.

#### Storage and expire date:

Store at room temperature (under 25°C) and out of sunlight (UV light). Expire date: see top left of label.

#### Bottle contents:

400 mg CBD in 10 ml hemp seed oil. 1 drop contains 2 mg CBD.
